Chapter 8

O baneo visoas – The young breadfruit tree

Ruth Sima Rigamu & Joyce Maion

Figure 1: *Baneo visoas* – Young breadfruit tree

Ruth Sima Rigamu & Joyce Maion. 2026. *O baneo visoas* – the young breadfruit tree. In Ulrike Mosel (ed.), *The material culture of the Teop people of Bougainville*, 101–103. Berlin: Language Science Press. DOI: 10.5281/zenodo.22880242

(1)	*O baneo vai o visoasi, o baneo vai o kare pura, to mei nana tea manoto*	A young breadfruit tree is a breadfruit tree that has only recently started growing and is not mature yet.
(2)	***Mosi naono baneo***	**Cutting breadfruit trees**
(3)	*Bea abana tau paku bona kave goroto,*	When people are about to make a turtle net,
(4)	*eori repaa paku bona vahiihio.*	they have a meeting.
(5)	*E beera repaa sue,*	Then the chief says,
(6)	*"Bara tobara visoasi, eara kahi paku rara a kave goroto.*	"Well, young boys, we are going to make a turtle net.
(7)	*Eam toro nao tea mosi ta maa naono baneo vai ta maa rutarutaa."*	You must go and cut some small breadfruit trees."
(8)	*Eori repaa nao.*	Then they go.

(a) (b)

Figure 2: (a) *Kapa baneo* – Cover of the breadfruit tree,
(b) *Sui* – Ark Clam, used to scrape the fibres of the breadfruit tree

(9)	***Hihi bona kapa baneo***	**Pulling off the cover of breadfruit trees.**
(10)	*Beori mosi vakavara maa bona naono baneo vai a rutarutaa,*	When they have finished cutting the small breadfruit trees,
(11)	*eori repaa dee voosu maa bari.*	they carry them home.
(12)	*A naono baneo vai a rutarutaa na mataa nana, suku bona na kobusu nana,*	The small breadfruit trees are good, because they are moist,

(13)	*me na antee nana tea tahihi vamataa.*	and (the fibres) can easily be peeled off.
(14)	*Beori dee voosu maa bari,*	When they have brought them home,
(15)	*eori repaa taneo tea kahu bono kapa vaa toonuna,*	they start scraping off the top cover (i.e. the bark),
(16)	*beori varoava batari bari.*	while they are putting them (the trees) in the sun.
(17)	*Beve raka, eori repaa hihi pete bari.*	When they are dry, they pull off the fibres.
(18)	*Eori repaa varoava vaha bana bari, eve re kiksi.*	Then they will put them in the sun again, so that they become strong.
(19)	*Beve mahaka vakavara,*	When they are completely dry,
(20)	*eori repaa kahu mana bono kara baneo bona kehaa*	they eventually scrape the breadfruit tree fibres with a shell
(21)	*to dao riori bona sui.*	that they call *sui* (ark clam).
(22)	*Murinae eori repaa sirisiri varutaa bono kara baneo,*	After that they tear the breadfruit fibres into small strips,
(23)	*matatopo vaa tea vinugu.*	in preparation for twisting (strings).
(24)	***Kave goroto***	**Turtle net**
(25)	*Beori vinugu vakavara bona kanono,*	After they finish twisting the string
(26)	*eori repaa taneo tea huha bona kave goroto.*	they start tying the turtle net.[1]
(27)	*Kavara na aba vai to huha vatotoena bata maari,*	Everybody who is involved in tying (the net)
(28)	*na vaa'antee bata maari bono peho mata kave.*	supplies one mesh of the net.
(29)	*Evei o vahutate no baneo visoasi.*	So, this is the story of the young breadfruit tree.
